

## Bexar County 2005 Health Benchmarks

| Maternal Indicators      | Number | % of Births | Healthy People 2010 Goal                            | Status |
|--------------------------|--------|-------------|---|--------|
| Total Births             | 25,582 |             |   |        |
| Mother's Age <18         | 1,369  | 5%          | No more than 5% of all births                       |        |
| Low birth weight         | 2,291  | 9%          | Less than 5% weighing < 2,500 grams at birth        |        |
| Late Prenatal Care       | 6,754  | 26%         | Less than 10% receive care after the 1st trimester. |        |
| Births to Single Mothers | 10,623 | 42%         |   |        |
| Premature <37 Weeks      | 3,100  | 12%         | Reduce Preterm Births to 7.6%                       |        |
| Medicaid births          | 12,857 | 50%         |   |        |
| Infant deaths            | 170    | 6.65        | less than 4.5                                       |        |

| Multiple Cause Mortality | Number | Rate per 100k | Healthy People 2010 Goal Rate per 100k | Status |
|--------------------------|--------|---------------|--|--------|
| Hypertension             | 1475   |               |  |        |
| Diabetes                 | 991    | 67.1          | 45.0                                   |        |
| Mental disorders         | 734    |               |  |        |

Single cause mortality statistics do not provide a complete picture of the burden of disease for hypertension, mental disorders and diabetes

| Single Cause Mortality      | Number | Rate per 100k | Healthy People 2010 Goal Rate per 100k | Status |
|-----------------------------|--------|---------------|--|--------|
| Unintentional Injury Deaths | 233    | 25.2          | 17.5                                   |        |
| Motor Vehicle Deaths        | 162    | 11.0          | 9.2                                    |        |
| Homicide                    | 105    | 7.5           | 3                                      |        |
| Suicide Deaths              | 144    | 10.8          | 6                                      |        |
| Heart Disease Deaths        | 2592   | 228.6         | 166                                    |        |
| Cancer Deaths               | 2138   | 184           | 159                                    |        |
| Diabetes                    | 494    | 42.9          | 45                                     |        |
| Lung Cancer Deaths          | 515    | 44.7          | 44.9                                   |        |
| Breast Cancer Deaths        | 160    | 27.4          | 22.3                                   |        |
| Prostate Cancer Deaths      | 108    | 19.2          | 28.8                                   |        |

Age Adjusted Death Rates for Selected Causes

Infant Mortality Rates calculated for 1,000 births.

All births and deaths are by county of residence.

Age Adjusted Death Rate calculations use 2000 standard population.
